ELAD ANEDO DAUDET IKEORAH

DevOps and AIOps Engineer | AI Automation Expert

Valencia, Spain (46014) | Open to Relocation | Remote

eladdaudet1918@gmail.com | +91 89834 61149

PROFILE

Senior AIOps & DevOps Engineer with 6+ years of experience building and scaling AI-powered automation and cloud infrastructure for high-availability systems. Delivered up to 40% cost reduction and 99.9%+ uptime by engineering production-grade DevSecOps pipelines, LLM-driven automation, and resilient data architectures. Specialized in infrastructure-as-code, distributed systems reliability, and secure IAM at scale, with cross-domain expertise in CyberOps, Data Engineering, and Machine Learning.

EXPERIENCE

❖ DevOps & Automation Engineer, (Óxido Verde)

Mar 2026 - Present

(Hybrid Contract) **Valencia, Spain**

- Engineer a Python-based Integration Hub facilitating real-time data synchronization between Odoo Community ERP and global marketplaces (TikTok Shop, eBay) thereby reducing data latency by 60% and integration costs by 30%.
- Develop and optimize **RESTful API connectors**, automating order fulfillment, inventory reconciliation, and product catalog mapping across 7+ high-volume platforms.
- Architect data transformation pipelines in Python, reducing data inconsistencies by approximately 95% and improving processing throughput by over 40% across JSON/XML and PostgreSQL workflows.
- Drive system reliability by performing root-cause analysis on integration bottlenecks, sustaining 99.9% uptime for mission-critical e-commerce workflows.

❖ Technical Support & Automation Engineer, (Hosono DE)

Oct 2025 - Feb 2026

(Hybrid Contract) **Tokyo, Japan**

- Built and deployed end-to-end **n8n** and **Ansible/Semaphore automations** to streamline testing, tracking, and server inventory management, increasing team productivity and providing real-time visibility across client ecosystems like **Shopify** and **Shopware**.
- Refined **internal LLM-driven automation agent (Hosono AI)**, to automate data processing and enhance organizational decision-making for a distributed international team.
- Delivered cross-functional remote support, resolving technical bottlenecks for developers and marketing teams across different time zones using **Slack, TeamViewer, and Jira.**
- Architected and enforced cloud-native IAM frameworks, implementing least-privilege access models, MFA, and policy-driven authorization to achieve compliance with **GDPR and ISO 27001.**

❖ Data & Automation Engineer, (A-B InBev)

Feb 2024 - Aug 2024

(Remote Project-based) **Prague, Czech Republic**

- Automated candidate screening for 2,000+ applicants via Make.com workflows, improving matching accuracy by approximately 92% and reducing HR manual review time by over 20 hours.
- Implemented Python-based data pipelines (Pandas, NumPy) to clean and standardize complex datasets, leveraging Regex for PII normalization and resolving schema inconsistencies to achieve **99.9% data integrity**.

❖ CyberOps Engineer, (Cisco Systems, Inc.)

Jun 2023 - Nov 2023

(Remote Project-based) **San Jose, CA (Global Headquarters)**

- Enhanced SOAR playbooks and security workflows, reducing Mean Time to Respond (MTTR) by **20%** and mitigating high-risk security incidents.
- Standardized and automated global security infrastructure using Infrastructure as Code (Ansible, Terraform), scaling secure network deployment across **50+ sites** and reducing provisioning time by up to **60%**.

❖ Cisco IT Support & Instructional Assistant, (College of Technology)

Dec 2022 - June 2023

(Onsite Contract) **Buea, Cameroon**

- **Provisioned and maintained** enterprise-grade network infrastructure (routers, firewalls, Identity and Access Management), ensuring full compliance with institutional security policies.
- Improved student learning efficiency by up to **89%** by designing and documenting structured enterprise networking protocols for technical labs.

❖ **Full Stack Developer, (Rocket 234)** Jul 2021 - Sep 2022

(Onsite Contract) **Douala, Cameroon**

- Designed and provided scalable full-stack solutions, ensuring up to 99.99% system availability while optimizing performance and operational costs.
- Orchestrated full SDLC execution and DevOps transformation, automating CI/CD pipelines and infrastructure provisioning, reducing release cycles by over 20% and increasing deployment frequency.

❖ **Lead DevOps Consultant, (MisterComp Cameroon)** Feb 2021 - Present

(Concurrent freelance/consulting role) **Douala, Cameroon**

- Defined and executed the company's technical strategy, delivering scalable software and automation solutions that ensured **99.9% operational continuity** while reducing infrastructure costs.
- Spearheaded end-to-end product lifecycle and DevOps transformation, providing consulting services across cybersecurity, networking, cloud infrastructure, and hardware systems.

SKILLS

❖ **PROGRAMMING**: Python, Shell Scripting, PowerShell, JavaScript, TypeScript, SQL (PostgreSQL, MySQL, SQLite), HTML, SCSS/CSS, PHP, C, JSON, XML, Regex.

❖ **FRAMEWORKS & API**: Django, Angular, LangChain, FastAPI, Ionic, Symfony, Odoo, GraphQL, gRPC, WebSockets.

❖ **LLMOps & AUTOMATION:** n8n, Make.com, UiPath, Cline, OWASP ZAP, Robocorp, SonarQube, SQLMap, Prompt Engineering, OpenAI API, AIOps, Hugging Face.

❖ **DEVOPS & CLOUD**: Git, GitLab CI/CD, GitHub Actions, Linux, AWS, AWS S3, GCP, Kubernetes, Docker, Ansible, Terraform, SSH, Bash, REST APIs, YAML.

❖ **DATA SCIENCE & MACHINE LEARNING:** NumPy, Pandas, Matplotlib, Seaborn, scikit-learn, OpenCV, AI embeddings.

❖ **SECURITY & QUALITY ASSURANCE:** Selenium, Cypress, Playwright, Wireshark, Nmap, Prometheus, Alertmanager, Datadog.

❖ **PRIVACY & COMPLIANCE**: ISO 27001, SOC 2, GDPR, CCPA, DPIA, IAM (1Password), MFA, Zero Trust, Vendor Risk Management.

❖ **COLLABORATION & PRODUCTIVITY**: Slack, Notion, PagerDuty, Jira, Confluence, Trello, Diagrams.net, TeamViewer, Power BI, Microsoft Teams, Excel, Toggl, Diagrams.net, Adobe Creative Cloud, Loom, Google Workspace.

EDUCATION

❖ **Vishwanath Karad MIT World Peace University, India, Pune** **Grade: Distinction (Top Tier)**

Master's Degree (Computer Science) **Awarded two consecutive merit-based scholarships**

❖ **University of Buea, Cameroon, Buea**

Bachelor of Technology (Software Engineering)

❖ **Cisco Networking Academy Training**

CERTIFICATION

❖ **Cisco CyberOps Associate**
