

ELAD ANEDO DAUDET IKEORAH

DevOps & AIOps Engineer | AI Automation Expert

Valencia, Spain (46021) | Open to Relocation | Remote

eladdaudet1918@gmail.com

PROFILE

Mid-Level AIOps & DevOps Engineer with 6+ years of experience building and scaling AI-powered automation and cloud infrastructure for high-availability systems. Delivered up to 40% cost reduction and 99.9%+ uptime by engineering production-grade DevSecOps pipelines, LLM-driven automation, and resilient data architectures. Specialized in infrastructure-as-code, distributed systems reliability, and secure IAM at scale, with cross-domain expertise in CyberOps, Data Engineering, and Machine Learning.

EXPERIENCE

- ❖ **Technical Support & Automation Engineer, (Hosono DE)**

Oct 2025 – June 2026

(Hybrid Contract)

Tokyo, Japan

 - Built and deployed end-to-end **n8n** and **Ansible/Semaphore automations** to streamline testing, tracking, and server inventory management, increasing team productivity and providing real-time visibility across client ecosystems like **Shopify** and **Shopware**.
 - Using Cypress and Playwright to automate testing and quality assurance, making sure all the clients sites work as intended with minimal downtime and bottlenecks
 - Refined **internal LLM-driven automation agent (Hosono AI)**, to automate data processing and enhance organizational decision-making for a distributed international team.
 - Delivered cross-functional remote support, resolving technical bottlenecks for developers and marketing teams across different time zones using **Slack, TeamViewer, and Jira**.
 - Architected and enforced cloud-native IAM frameworks, implementing least-privilege access models, MFA, and policy-driven authorization to achieve compliance with **GDPR and ISO 27001**.
- ❖ **Data & Automation Engineer, (A-B InBev)**

Feb 2024 - Aug 2024

(Remote Project)

Prague, Czech Republic

 - Automated candidate screening for 2,000+ applicants via **n8n** workflows, improving matching accuracy by approximately 92% and reducing HR manual review time by over 20 hours.
 - Implemented Python-based data pipelines (Pandas, NumPy) to clean and standardize complex datasets, leveraging Regex for PII normalization and resolving schema inconsistencies to achieve **99.9% data integrity**.
- ❖ **CyberOps Engineer, (Cisco Systems, Inc.)**

Jun 2023 - Nov 2023

(Remote Project)

San Jose, California (Global HQ)

 - Enhanced SOAR playbooks and security workflows, reducing Mean Time to Respond (MTTR) by **20%** and mitigating high-risk security incidents.
 - Standardized and automated global security infrastructure using Infrastructure as Code (Ansible, Terraform), scaling secure network deployment across **50+ sites** and reducing provisioning time by up to **60%**.
- ❖ **Cisco IT Support & Training Assistant, (College of Technology)**

Dec 2022 - Jun 2023

(On-site Contract)

Buea, Cameroon

 - Provisioned and maintained** enterprise-grade network infrastructure (routers, firewalls, Identity and Access Management), ensuring full compliance with institutional security policies.
 - Improved student learning efficiency by up to **89%** by designing and documenting structured enterprise networking protocols for technical labs.

❖ Full Stack Developer, (Rocket 234)

Jul 2021 - Sep 2022

(On-site Contract)

Douala, Cameroon

- Designed and provided scalable full-stack solutions, ensuring up to 99.99% system availability while optimizing performance and operational costs.
- Orchestrated full SDLC execution and DevOps transformation, automating CI/CD pipelines and infrastructure provisioning, reducing release cycles by over 20% and increasing deployment frequency.

❖ Lead DevOps Consultant, (MisterComp Cameroon)

Feb 2021 - Present

(Freelance / Parallel Consulting)

Douala, Cameroon

- Defined and executed the company's technical strategy, delivering scalable software and automation solutions that ensured **99.9% operational continuity** while reducing infrastructure costs.
- Supervised end-to-end product lifecycle and DevOps transformation, providing consulting services across cybersecurity, networking, cloud infrastructure, and hardware systems.

SKILLS

- ❖ **PROGRAMMING:** Python, Shell Scripting, PowerShell, JavaScript, TypeScript, SQL (PostgreSQL, MySQL, SQLite), HTML, SCSS/CSS, PHP, C, JSON, XML, Regex.
- ❖ **FRAMEWORKS & API:** Django, Angular, LangChain, FastAPI, Ionic, Symfony, Odoo, GraphQL, gRPC, WebSockets.
- ❖ **LLMOps & AUTOMATION:** n8n, Make.com, UiPath, Cline, OWASP ZAP, Robocorp, SonarQube, SQLMap, Prompt Engineering, OpenAI API, AIOps, Hugging Face, Grafana.
- ❖ **DEVOPS & CLOUD:** Git, GitLab CI/CD, GitHub Actions, Linux, AWS, AWS S3, GCP, Kubernetes, Docker, Ansible, Terraform, SSH, Bash, REST APIs, YAML.
- ❖ **DATA SCIENCE & MACHINE LEARNING:** NumPy, Pandas, Matplotlib, Seaborn, scikit-learn, OpenCV, AI embeddings.
- ❖ **SECURITY & QA:** Selenium, Cypress, Playwright, Wireshark, Nmap, Prometheus, Alertmanager, Datadog, Postman, Supertest.
- ❖ **PRIVACY & COMPLIANCE:** ISO 27001, SOC 2, GDPR, CCPA, DPIA, IAM (1Password), MFA, Zero Trust, Vendor Risk Management.
- ❖ **COLLABORATION & PRODUCTIVITY:** Slack, Notion, PagerDuty, Jira, Confluence, Trello, Diagrams.net, TeamViewer, Power BI, Microsoft Teams, Excel, Toggl, Diagrams.net, Adobe Creative Cloud, Loom, Google Workspace.

EDUCATION

❖ Vishwanath Karad MIT World Peace University, India, Pune

Grade: Excellent Distinction (Top Tier)

Master's (Computer Science)

Recipient of two consecutive merit-based scholarships

❖ University of Buea, Cameroon, Buea

Bachelors in Technology (Software Engineering)

❖ Cisco Networking Academy Training

CERTIFICATION

❖ Cisco CyberOps Associate
